Conclusion of the Intermag 2003 Conference

# WELCOME TO INTERMAG 2003

## SCOPE OF CONFERENCE

The Intermag 2003 Conference is sponsored by the IEEE Magnetics Society and will be held from Sunday, March 30<sup>th</sup>, through Thursday, April 3<sup>rd</sup>, at the Boston Marriott Copley Place, in Boston, Massachusetts, USA. As a member of the international scientific and engineering communities interested in recent developments in magnetics and associated technologies, you are invited to attend the Conference and contribute to its technical sessions.

This is the premier conference on applied magnetics and information storage technologies. An exciting program has been planned for Intermag 2003. Five invited Symposia are scheduled to cover rapidly growing areas of interest: biological and medical applications of magnetics, high frequency magnetics, nano-technologies, and spintronics. In addition, a Tutorial session on biological and medical applications of magnetics, as an introduction to this field of research, has been assembled. Finally, the Exhibits in the Partner's Pavilion, reviewing the latest products and developments in applied magnetics, will be of great interest.

Intermag 2003 will provide an outstanding opportunity for participants to meet their colleagues from around the world, and to share and discuss developments in a wide range of topics.

## VISA REQUIREMENTS FOR ENTRY INTO THE USA

Citizens of other countries must carry a valid passport and visa to enter the USA. Foreign participants should contact the United States Embassy, Consulate, or Office of Tourism in their home country AS SOON AS POSSIBLE to determine their particular visa requirements. If you need a personal letter of invitation to attend Intermag 2003, please contact Courtesy Associates at [intermag@courtesyassoc.com](mailto:intermag@courtesyassoc.com). You must provide your full name and complete mailing address. An original, signed letter will be sent to you via standard mail service since only an original copy (not faxed or email version) will be accepted with the visa application.

**PLEASE NOTE that the Intermag Conference cannot and will not contact or intervene with any U.S. Embassy or Consulate office on a participant's behalf. We strongly urge you to begin the process to obtain a visa immediately.**

## PLENARY SESSION

If you ever wondered how magnetics is advancing the state of the art in medical technology then please come and join us for this exciting session.

## **TRANSPORTATION & GENERAL INFORMATION**

Extensive construction is under way at Boston's Logan Airport, its roadway connections to Boston and along the waterfront. It is generally recommended not to rent a car. Cab fare from Logan to the Marriott Copley is about \$25. Bus service is available from *City Transportation Boston Hotel Shuttle* every 15 minutes from 6 AM to midnight for about \$9.50 each way. For those interested in a tour of Boston's historic Metropolitan Transit System ("The T"), a free airport shuttle bus (No. 22, 33 or 55) can get you to the Logan T stop "Airport". From there you take the blue line inbound to "Government Center"; change to the green line (west) and get off at "Copley". The fare is \$1. For a map, please visit: [www.mbta.com](http://www.mbta.com).

For further information on Boston, please refer to the Greater Boston Convention and Visitors Bureau's web site that can be found under the "Location" tab of the Conference web site ([www.intermagconference.com](http://www.intermagconference.com)).

The Education Committee and the Awards Committee of the IEEE Magnetics Society are pleased to sponsor a small number of students working in magnetics to attend the INTERMAG 2003 Conference. These awards (approximately \$500 each)

are intended to partially offset travel costs to attend the Conference. Nominations will be accepted from faculty advisors of the interested students. The nominator does not have to be the student's primary advisor, but must be intimately familiar with his or her work. The nominator must also be a member of the IEEE Magnetics Society. Preference will be given to students who are nearing completion of their graduate studies and presenting papers at the conference. No support will be granted to postdoctoral fellows or non-students. For details, please visit the Conference web site.

## **CONFERENCE SOCIAL EVENT**

The Conference social event will be held on Tuesday evening, April 1<sup>st</sup>, at the New England Aquarium from 6:00 PM to 10:00 PM. Tickets for the event may be ordered at the time of Advance Registration, or purchased on site during the Conference. Due to limited space, advance purchase is encouraged.

The New England Aquarium opened its doors to the public for the first time on June 20, 1969. The Aquarium was designed with the intention of providing an underwater experience for the visitor and of being a cultural institution that would reconnect Boston to its waterfront. In its more than 30 years of existence the Aquarium has grown significantly. The Giant Ocean Tank opened in 1970 and was, at the time, the largest circular, salt-water tank in the world. The Aquarium continues its tradition to serve as a leader in research, education and conservation.

The evening will feature access to the main exhibits. Dinner stations will be set up throughout the aquarium featuring a choice of meat, fish and vegetarian entries, soft beverages, dessert and coffee. A full cash bar will be available from 6:00 PM to 9:00 PM.

## **THE NEW PARTNER PAVILION**

### *A CHANGE IN TONE FOR INTERMAG EXHIBITS AND INDUSTRIAL SUPPORT*

In our survey of the commitment of loyal industrial supporters and exhibitors, we have learned that their continuous involvement is driven by a commitment to industry education, development and success. All industrial support and exhibition contributions have offset the considerable expenditures involved with organizing and delivering this Intermag Conference. Partner contributions have helped to keep down registration fees without compromising the quality of the program. The dedication of our Partners to the overall success has energized this year's Conference leadership to change the tone and the image of the conference sponsors. While the IEEE Magnetics Society hosts the conference, there is a need to recognize exhibitors and industrial supporters for their unwavering partnership; thus, the birth of the Partner Pavilion.

The pavilion will be located in the University Hall (Exhibit Hall) of the Boston Marriott Copley Place from Tuesday, April 1 – Thursday, April 3. The hours are as follows:

**TUESDAY..... 12:00 PM – 5:00 PM**  
**WEDNESDAY..... 12:00 PM – 5:00 PM**  
**THURSDAY..... 12:00 PM – 5:00 PM**

Please be sure to stop by the Partner displays and thank them for their continued support. If you are interested in being a Conference Partner please contact Wendy Acevedo Arthur at (202) 367-2358 or via e-mail at warthur@courtesyassoc.com.

## **PARTNER PROGRAM**

The 1500 professionals in attendance during the Intermag Conference are primarily scientists, engineers and managers representing a diverse range of disciplines related to the physics and engineering applications of magnetism and magnetic materials. Principal areas of interest cover both theory and applications, and include magnetic recording, magnetic thin films, magnetic computation, magnetism in the biological sciences, soft and hard magnetic materials, and microwave magnetics to name a few.

Contributions from our Partners help offset the expenditures involved with the screening process of papers and presentations, food and beverage and audiovisual needs. These contributions help keep down registration fees without compromising the quality of the program. We thank you for your consideration and appreciate any monetary support you are able to provide.
